# KEY RANCH

*"Unlocking Higher Potential"*

## Annual Production Sale

### ***Greetings from KEY Ranch,***

We hope that 2023 has been kind to all of you and that you have had a great year within all that you have going on. There is a lot to be excited about within the beef business! One of which is our upcoming annual production sale, Saturday, December 9th, 2023. We have a solid line-up of Higher Potential bulls and bred heifers that will sell. We're looking forward to seeing all of you and getting your assessment of all our work.

We felt it fitting that we come up with a way to describe what we are trying to accomplish and what can only be found exclusively from KEY Ranch. As you already know, our efforts are geared toward "Unlocking Higher Potential". So, naturally, it's only fitting that we promote our product as just that, Higher Potential. It doesn't matter what stage of the process, our focus is the same, producing and offering cattle that deliver a higher potential for satisfaction and profitability for you, the commercial cow/calf producer, the heart, and soul of the beef industry.

We really get a kick out of driving by feedyards, admiring all the cattle, and especially in the fall seeing the big piles of feed. The one thing that always comes to mind for us during these little road trips, is that all those cattle on feed (sometimes tens of thousands at some yards) were calved out, one at a time by you guys, the cow/calf man and woman. Hats off to you and thank you for what you do! We firmly believe that it's the most challenging stage of the game and probably the closest thing to the original "Pioneer Spirit" that settled our country. It's comforting to know that that mentality is still alive today and we get to be a part of it!

In stating what your line of work does to feed the world, it should be discussed what that's worth. In a lot of cases the individual who owns and operates a cow herd isn't necessarily in it for the money, it's the lifestyle that attracts them to what they're doing. But bills still need to be paid and let's face it, we all have hopes and dreams and it takes dollars to get there. There are only so many dollars within the beef business and each sector gets its piece of that. It's our firm belief that the commercial cow/calf producer should get the biggest piece of that pie. Remember who fills the feed yards? You folks, in a lot of ways, have the hardest and highest risk stage of the business.

We want you to know that we're in your corner, cheering you on and doing what we can to help you. It's what drives what we do within our operation. You may be surprised at how often you come to mind for us. We recognize how the decisions we make ultimately impact end results for you. Some of you have known us long enough to watch us go through ups and downs. During the down times when life is delivering repeated blows below the belt, for us part of the driving force that keeps us going is you in our corner cheering us on. Thank you for that!

If you think we can be of help to you in reaching your goals, please plan to be in attendance on sale day.

Thank You,  
Kaleb & Erin

# Welcome

## **SALE LOCATION:**

28275 HWY 183  
Miller, NE 68858

## **SALE DAY TELEPHONES:**

Kaleb Kuck (308) 991-2234  
Erin Kuck (308) 991-9650

## **SALE CONSULTANT:**

Derly Riley (308) 962-6975

## **AUCTIONEER:**

Matt Lowery – (308) 750-6119

## **SALE ORDER:**

Official sale order will be announced / available sale day.

## **TERMS AND CONDITIONS:**

Cattle will sell under the suggested Terms and Conditions of the American Angus Association ([http://www.angus.org/Pub/suggested\\_sale\\_terms.pdf](http://www.angus.org/Pub/suggested_sale_terms.pdf)).

## **ANNOUNCEMENTS:**

Announcements from the auction block take precedence over any printed material.

## **HERD HEALTH:**

All cattle will sell with proper health papers for interstate shipment.

## **PAYMENT:**

All cattle are to be paid for in full, sale day. All payments are to be made to KEY Ranch.

## **DELIVERY:**

Free delivery on bull purchases within 1,000 miles.

## **INSPECTION OF THE CATTLE:**

Cattle will be available for viewing at our operation anytime leading up to sale day. Please feel free to come early on sale day, December 9<sup>th</sup>, 2023 to view the sale offering and enjoy cinnamon rolls and coffee.

## **DVAUCTION:**

For anyone who is unable to attend; cattle can be purchased sale day through [www.dvauction.com](http://www.dvauction.com) an internet site for live cattle auctions. Anyone interested in this option should contact DVauction at (828) 421-3446 for proper instructions or arrangements before the start of the sale.

## **STORM DATE:**

Watch for any sale postponement or announcement on our website [www.key-ranch.com](http://www.key-ranch.com) or you can call or text Kaleb or Erin at the numbers listed above for further information.

## **RINGMEN:**

Randy Rasby – American Cattlemen  
(308) 539-6195

Chris Beutler – Livestock Digital  
(402) 380-8244

Will Harsh, American Angus Association  
(740) 272-1386

\*Free lunch will be provided sale day,  
compliments of KEY Ranch & KEY Cattle Development.

## **RETAINED SEMEN INTEREST**

KEY Ranch is retaining a 1/3 semen interest in all of the bulls in this sale offering. The buyer receives their 2/3 semen interest, full possession and full salvage value.

## **FIRST YEAR BREEDING SEASON GUARANTEE**

There is a first year breeding season guarantee on all bulls in this sale offering. In the event of an issue(s) arising during the first breeding season we will resolve the matter with a case-by-case approach, by giving our customer(s) two options.

**Option 1:** Sale credit to be used upon the purchase of another bull from the next KEY Ranch Annual Production Sale. We define sale credit as the original purchase price minus any possible salvage value (salvage value going directly to the customer).

**Option 2:** A replacement bull from our operation of satisfactory quality, if available.

\*Blatant negligence in animal care will be frowned upon.

## **DNA - PARENTAGE TESTING**

We're very passionate about the importance of accurate data. We utilize DNA parentage testing by testing every new-born calf each year. This comes at a considerable financial cost as the testing isn't cheap, but we want to be 100% confident in the accuracy of each individual animal's pedigree / lineage. This not only solidifies the trueness of their pedigree but also makes our EPDs all the more accurate as the data (weights, measurements, etc.) that we submit to the American Angus Association are tied to the correct Sire and Dam.

## **GUARANTEES:**

### **Bulls:**

- All bulls in this sale are either virgin bulls or have tested negative for trichomoniasis.
- All bulls have been selected for structural soundness.
- All bulls have been de-wormed, poured for lice, received 7-Way vaccination, and have been vaccinated against respiratory diseases.
- All bulls have passed a breeding soundness exam provided by Overton Veterinary Services.
- All bulls have been determined by testing or lineage to be free of the following genetic defects:
  - AM – Arthrogryposis Multiplex (Curly Calf Syndrome)
  - NH – Neuropathic Hydrocephalus (Water Head)
  - CA – Contractural Arachnodactyly (Fawn Calf Syndrome)
  - OS – Osteopetrosis (Marble Bone Disease)

### **Bred Females:**

- All Bred Females in this sale offering have been vaccinated for Brucellosis (Bang's Disease)
- All Bred Females have been de-wormed, poured for lice, received 7-Way vaccination, and have been vaccinated against respiratory and breeding diseases.
- All Bred Females have been determined to be pregnant having undergone a pregnancy exam provided by Overton Veterinary Services.

\*Any questions regarding the health program of the cattle in this sale offering please feel free to contact Dr. Elliot Linsenmeyer of Overton Veterinary Services at (308)-324-7202.

Current weights, scrotal measurements & updated EPDs  
will be shown on the supplement sheets sale day.

## EPD's IN BASIC TERMS

### Expected Progeny Difference (EPD)

**Calving Ease Direct (CED)** – A predictor of calving ease. The higher the number the greater the likelihood for calving ease in the offspring.

**Birth Weight EPD (BW)** – A predictor of birth weight. The higher the number the heavier the expected birth weight should be in the offspring.

**Weaning Weight EPD (WW)** – A predictor of weaning weight. The higher the number the heavier the expected weaning weight should be in the offspring.

**Yearling Weight EPD (YW)** – A predictor of yearling weight. The higher the number the heavier the expected yearling weight should be in the offspring.

**Scrotal Circumference EPD (SC)** - expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires. The higher the number the larger the expected scrotal circumference should be in the offspring of the animal.

**Milk EPD** – A predictor of an animal's genetic potential for milk production and mothering ability. The higher the number the greater the genetic potential becomes for increased milk production and mothering ability.

**Marbling EPD (Marb)** – A predictor of the amount of marbling in the meat. The higher the number the greater the potential becomes for increased marbling in the meat. This has a direct influence on the quality of the meat and carcass value of the animal.

**Ribeye EPD (RE)** – A predictor of the size of the Ribeye area. The higher the number the greater the potential becomes for a larger Ribeye area. Once again this has a direct influence on the quality of the meat and carcass value of the animal.

**\$B (Beef Value)** – The \$B is really a way to look at the terminal animal as a whole because it uses both the potential post-weaning performance and carcass quality traits of the animal in the calculations that determine the value. The higher the number, the more potential the animal has for an increased value at slaughter, in terms of revenue generated. Beef value really says it all because it is referring to the animals genetic potential to have increased post-weaning gain combined with high carcass quality for an overall increased value.

# Understanding The Information Printed With Each Sale Lot

Complete performance information is provided for each animal. The ratios are calculated in separate contemporary groups and conditions they were raised under, so that a ratio of 100 will not necessarily correlate to the same weight between the different groups. We have calculated interim EPDs for cattle that do not yet have official EPDs. Expected Progeny Difference (EPD) is the estimate of how future progeny of each sire are expected to perform in each of the traits listed. EPD is expressed in pounds, either plus or minus. For example, when used on the same cows, calves sired by a bull with a +40 weaning EPD should average 10 pounds more than those sired by a bull with a +30 weaning EPD. **EPDs in this catalog are current as of catalog press time. Updated EPDs can be viewed at [www.angus.org](http://www.angus.org).**

### Calving Ease Direct (CED) EPD

is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

### Birth (BW) EPD

is a predictor of progeny birth weight attributed to the parent.

### Weaning (WW) and Yearling (YW) EPDs

are predictors of the animal's ability to transmit weaning growth and yearling growth to its progeny.

### Milk EPD

is a predictor of an animal's genetic merit for milk and mothering ability.

### Birth Weight (actual)

**Adjusted Weaning Weight**  
Individual Adjusted 205-Day Weaning Weight for use in within-herd comparisons.

### Ratio

is the number of calves and average nursing ratio for all calves raised by the dam of the animal.

### SC EPD

Scrotal Circumference, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

### EPDs for Carcass Merit based on the Ultrasound Evaluation System

#### Marb EPD

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

#### RE EPD

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

### \$B (Beef Value)

An index value expressed in dollars per head, the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

## Bull Wintering and Delivery

We are offering free feed and care through delivery for all bulls that sell for \$4,000 or more. Wintering is available for bulls that sell under \$4000 for \$80/month. We will provide this service as another way of showing our gratitude for your support & purchase(s). Also, this allows us to put the finishing touches on developing the bulls, having them in optimum breeding condition upon delivery to the customer, with bull deliveries beginning the first part of April, 2024. Free delivery within the state of Nebraska, \$100 per bull delivery charge for states immediately surrounding the state of Nebraska. Areas of the U.S. outside of that we will split delivery costs 50/50 with the customer.

Facilities and people will be available to help load out the bred heifers on sale day or, if needed, within the week following the sale.

- Across the board this bull has the goods.
- Impressive carcass traits.
- Very much maternally sound genetics.

In April we had a hay grinder fire that consumed 400 bales. Thank you to all the neighbors and surrounding fire departments that battled all night to keep the fire contained and eventually extinguished. Also, thank you to Evans Construction who buried bales with their excavator and then came back to clean up and prep the area for new windbreak trees to be planted next spring.

- Another solid Tahoe son with a sharp look to him.
- Fully loaded with quality attributes, predictable and consistent quality progeny potential.
- He doesn't miss much; he has demonstrated that at times he can carry his head a little higher than the others.

The commercial bred heifers will sell in groups of 3-7 head. All head must be taken within that group, if purchased. Buyer with top bid has the opportunity to take up to 40 head at which point the bidding will restart.

Heifers will be pregnancy checked on November 27, 2023  
by Overton Veterinary Services.

Buyers have 10 days after sale day to recheck if they deem it necessary.  
After that day, all liability belongs to the new owner.

All sale heifers have made it through our strict heifer development standards that include culling for poor phenotype, disposition, and feed efficiency.

**Ibach Heifers** — These heifers have been handpicked from a neighbor for their impressive dams, tremendous growth potential, tri-breed breeding program (Angus, Simmental, Gelbvieh), and great dispositions. They have been pelvic measured, received a stomach magnet, bangs vaccinated, and received the first round of Scour Bos 9 vaccine.

*Lot 70 - 75* ..... Due February 5, 2024 to Tehama Patriarch, Woodhill Patent-Lot 73

## **Higher Potential Bred Heifers**

**Gurney Heifers** — As long-time friends and customers we have had the privilege of working with the Gurney family and have gotten to know them and their operation more and more over the years. In knowing their eye for cattle and having personally toured their ranch and cow herd our respect for the way they do things and the cattle they raise has continued to grow. For us, as we are striving to offer top end quality, having the opportunity to participate in developing and breeding this set of females is super exciting. We're confident in the job they will do for you and firmly believe they will deliver high satisfaction. This set of bred heifers are heavily influenced by KEY Ranch genetics; as the Gurney's have been loyal customers.

*Lot 132 - 136*...Due February 13, 2024 to Tehama Patriarch

*Lot 137 - 141*.....Due February 23, 2024 to Tehama Patriarch

*Lot 142 - 146*.....Due February 23, 2024 to Tehama Patriarch

*Lot 147 - 151*.....Due February 23, 2024 to Tehama Patriarch

*Lot 152 - 155*....Due February 23, 2024 to Tehama Patriarch

*Lot 156 - 160*.....Due February 23, 2024 to Tehama Patriarch

*Lot 161 - 163*.....Due March 15, 2024 to Tehama Patriarch

*Lot 164 - 166*.....Due March 15, 2024 to Tehama Patriarch

*Lot 167 - 169*.....Due April 1, 2024 to Tehama Patriarch

It should be mentioned that no preferential treatment or favoritism is behind the decision we made to pursue the opportunity to offer this set of heifers. We're blessed with a customer base that has stuck with and supported us through thick and thin, and who each individually has high quality breeding programs. Thank you to all of you! It is our desire to continue to grow our offering of bred females. We're interested in your heifer calves. If this something that could be of interest to any of you, please contact us. We'd love to work with you.
