# KEY RANCH

*"Unlocking Higher Potential"*

## Annual Production Sale

### **Greetings,**

From KEY Ranch, we write to you in hopes that things are well with you and to extend an invitation to join us sale day to evaluate our sale offering, enjoy the ever-popular beef & noodles that will be prepared and served by Tub's Pub again this year, getting us caught up on happenings on your end, and to celebrate another successful year of ranching.

This sale offering puts our embryo transfer program on full display, featuring many full brothers. It also unveils our fall born bulls, who they themselves are also a result of our efforts in embryo work. It's exciting to see the impact that is already being made at producing an accelerated quantity of offspring from our best genetics.

Whether it be spring or fall born, we're providing a Higher Potential bull for your use. In both cases we're providing you with the opportunity to utilize a more mature animal that has been developed with longevity and athleticism in mind.

We continue to expand our bred heifer offering and are very pleased with the outcome of this year's set. It is truly our belief that one would have to work hard at finding another set of bred heifers that could match or outdo this offering. As always, quality is at the forefront of our minds when participating in this business. We aim to please and deliver on providing animals that are going to be a pleasure to work with and profitable for you.

Thank you to all our loyal customers; we have growing admiration and respect for all of you and the quality and sincerity of your work.

See you soon,  
Kaleb & Erin

### **WATCH AND BID LIVE**

New bidders should register and apply to bid at least 24 hours prior to the sale.

For questions and tech support,  
call 402-316-5460.

# Welcome

## **SALE LOCATION:**

28275 HWY 183  
Miller, NE 68858

## **SALE DAY TELEPHONES:**

Kaleb Kuck (308) 991-2234  
Erin Kuck (308) 991-9650

## **AUCTIONEER:**

Matt Lowery – (308) 750-6119

## **SALE ORDER:**

Official sale order will be announced / available sale day.

## **TERMS AND CONDITIONS:**

Cattle will sell under the suggested Terms and Conditions of the American Angus Association ([http://www.angus.org/Pub/suggested\\_sale\\_terms.pdf](http://www.angus.org/Pub/suggested_sale_terms.pdf)).

## **ANNOUNCEMENTS:**

Announcements from the auction block take precedence over any printed material.

## **HERD HEALTH:**

All cattle will sell with proper health papers for interstate shipment.

## **PAYMENT:**

All cattle are to be paid for in full, sale day. All payments are to be made to KEY Ranch.

## **DELIVERY:**

See terms on page 5 for bull delivery.  
Bred Heifers - Trucking is the responsibility of the buyer.

## **INSPECTION OF THE CATTLE:**

Cattle will be available for viewing at our operation anytime leading up to sale day. Please feel free to come early on sale day, December 14<sup>th</sup>, 2024 to view the sale offering and enjoy cinnamon rolls and coffee.

## **DVAUCTION:**

For anyone who is unable to attend; cattle can be purchased sale day through [www.dvauction.com](http://www.dvauction.com) an internet site for live cattle auctions. Anyone interested in this option should contact DVauction at (828) 421-3446 for proper instructions or arrangements before the start of the sale.

## **STORM DATE:**

Watch for any sale postponement or announcement on our website [www.key-ranch.com](http://www.key-ranch.com) or you can call or text Kaleb or Erin at the numbers listed above for further information.

## **RINGMEN:**

Randy Rasby – American Cattlemen  
(308) 539-6195

Chris Beutler – Livestock Digital  
(402) 380-8244

Will Harsh, American Angus Association  
(740) 272-1386

\*Free lunch will be provided sale day,  
compliments of KEY Ranch & KEY Cattle Development.

Cy

## **RETAINED SEMEN INTEREST**

KEY Ranch is retaining a 1/3 semen interest in all of the bulls in this sale offering. The buyer receives their 2/3 semen interest, full possession and full salvage value.

## **FIRST YEAR BREEDING SEASON GUARANTEE**

There is a first year breeding season guarantee on all bulls in this sale offering. In the event of an issue(s) arising during the first breeding season we will resolve the matter with a case-by-case approach, by giving our customer(s) two options.

**Option 1:** Sale credit to be used upon the purchase of another bull from the next KEY Ranch Annual Production Sale. We define sale credit as the original purchase price minus any possible salvage value (salvage value going directly to the customer).

**Option 2:** A replacement bull from our operation of satisfactory quality, if available.

\*Blatant negligence in animal care will be frowned upon.

## **DNA - PARENTAGE TESTING**

We're very passionate about the importance of accurate data. We utilize DNA parentage testing by testing every new-born calf each year. This comes at a considerable financial cost as the testing isn't cheap, but we want to be 100% confident in the accuracy of each individual animal's pedigree / lineage. This not only solidifies the trueness of their pedigree but also makes our EPDs all the more accurate as the data (weights, measurements, etc.) that we submit to the American Angus Association are tied to the correct Sire and Dam.

## **GUARANTEES:**

### **Bulls:**

- All bulls in this sale are either virgin bulls or have tested negative for trichomoniasis.
- All bulls have been selected for structural soundness.
- All bulls have been de-wormed, poured for lice, received 7-Way vaccination, and have been vaccinated against respiratory diseases.
- All bulls have passed a breeding soundness exam provided by Overton Veterinary Services.
- All bulls have been determined by testing or lineage to be free of the following genetic defects:
  - AM – Arthrogryposis Multiplex (Curly Calf Syndrome)
  - NH – Neuropathic Hydrocephalus (Water Head)
  - CA – Contractural Arachnodactyly (Fawn Calf Syndrome)
  - OS – Osteopetrosis (Marble Bone Disease)

### **Bred Females:**

- All Bred Females in this sale offering have been vaccinated for Brucellosis (Bang's Disease)
- All Bred Females have been de-wormed, poured for lice, received 7-Way vaccination, and have been vaccinated against respiratory and breeding diseases.
- All Bred Females have been determined to be pregnant having undergone a pregnancy exam provided by Overton Veterinary Services.

\*Any questions regarding the health program of the cattle in this sale offering please feel free to contact Dr. Elliot Linsenmeyer of Overton Veterinary Services at (308)-324-7202.

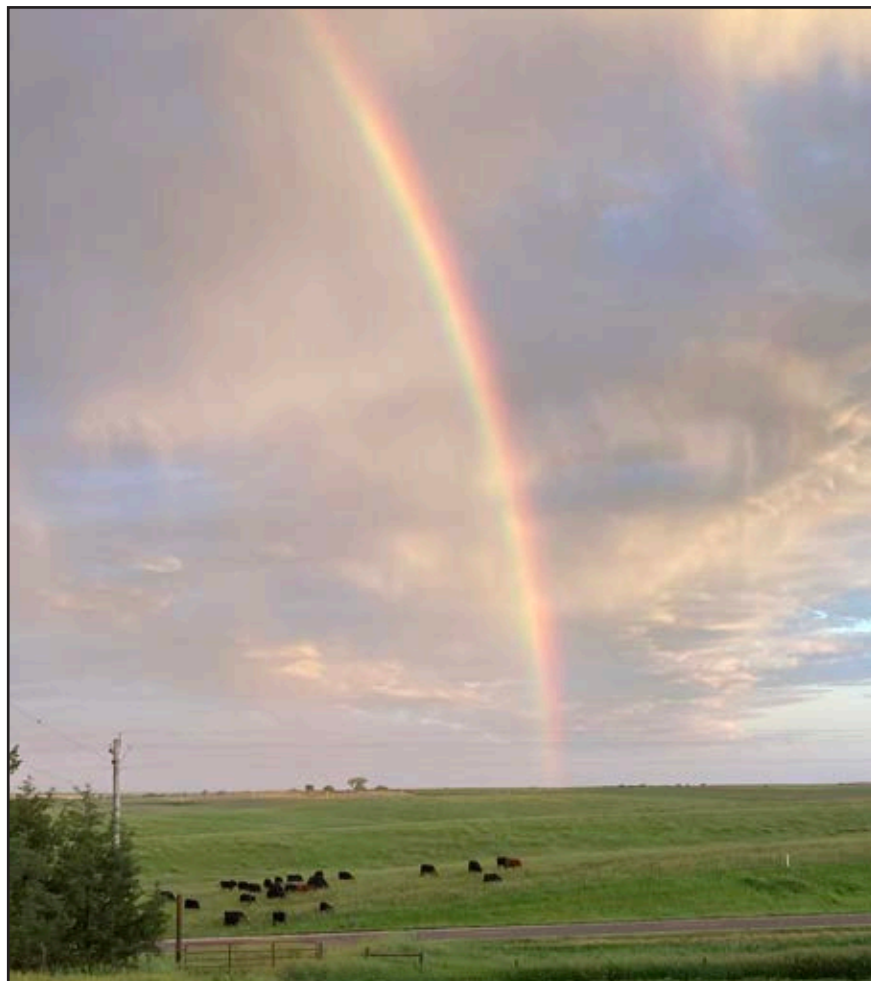

## **Bull Wintering and Delivery**

We are offering free feed and care through delivery for all bulls that sell for \$4,000 or more. Wintering is available for bulls that sell under \$4000 for \$80/month. We will provide this service as another way of showing our gratitude for your support & purchase(s). Also, this allows us to put the finishing touches on developing the bulls, having them in optimum breeding condition upon delivery to the customer, with bull deliveries beginning the first part of April, 2025. Free delivery within the state of Nebraska, \$100 per bull delivery charge for states immediately surrounding the state of Nebraska. Areas of the U.S. outside of that we will split delivery costs 50/50 with the customer.

Facilities and people will be available to help load out the bred heifers on sale day or, if needed, within the week following the sale.

**In the bull offering we utilized HD50K testing. You will notice their percent rank for each trait shown in the area just above the footnotes. The lower the number the better, the number represents where they rank within the Angus breed compared to other animals that have undergone the same genomic testing.**

- Dam is ideal for size, thickness, docility, fleshing ability and overall ability to perform. She is a heavily used donor cow in our program.
- You talk about "peas in a pod", the full siblings from this flush mating could have coined that phrase.

- His dam is a super powerful petite cow. One of those rare finds where the cow is ultra efficient and a bit on the smaller size but absolutely pours everything, she has into her calf every year and cranks out one winner after another. She raised the heaviest weaning weight bull calf out of our entire 2024 spring born calf crop.
- Ultra safe on heifers. We used this bull for natural service clean-up breeding on some of the bred heifers that are in this sale offering.

- Lot 25 is out of one of the most exciting young cows in our herd, we would call her average frame size, very strong maternal traits and has done an excellent job of weaning off heavy calves each year.
- From our humble perspective there are a lot of high potential bulls in this sale offering, this guy ranks right up there in his ability to transmit excellence into his calves.

- Moderate framed dam who is approaching 10 years of age. Strong mothering traits and complete in appearance.
- Confirmed through DNA testing Lot 27 ranks in the top 30% of the breed for 10 traits, of those 10 many are associated with a genetic ability to transmit the ability for extra growth compared to the rest of the breed.
- First offspring to sell by his sire, KEY - Strut. Strut is continuing to sire some impressive calves. He is a high libido bull, carrying on / taking the place of his own sire Weigh 4247. Strut's dam is a heavily used donor cow in our breeding program.

- His dam is tad below average frame, a heavy milker, slightly tighter bodied, with high fertility.
- Greatest attributes of this bull in our opinion are the following: explosive growth from weaning to yearling, high fertility, ability to transmit added milk production.

- His mother is one of our herd favorites, smaller statured cow with a lot of width and depth. Fantastic mothering ability, and fleshing ability.
- We're really pleased with the Benchmark sire group; he is producing sons that are stout and robust and daughters that are very showy and feminine.

- Optimum size and shape displayed by his dam, a heavy milking cow.
- Solid growth numbers, genetically he excels in claw, angle, docility and heifer pregnancy compared to the rest of the breed.
- Safe for use on heifers. We used this bull for natural service clean-up breeding on some of the bred heifers that are in this sale offering.

- His dam comes from a line of cows that are consistently moderate and rich in cow savviness.
- Good option for anyone who might be looking to moderate birth weight on your cows without giving up weaning and yearling weight.
- One of the best bulls in the catalog so far in terms of carcass traits.

- Slightly below average height would describe his dam; she is another cow with a lot of natural instinct to do her job well.
- Dynamite comes in small packages; Lot 32 might not be as big as some of the other bulls in the offering but totes top 17% of the breed rank for both weaning and yearling weight epd's; verified through genomic testing.
- Everything points toward Lot 32 really shining in the area of producing sound, functional, attractive daughters.

- The dam of Lot 36 is arguably the best cow we've ever owned. Sadly, she is now deceased, it was a really sad day when we lost her, we had been flushing her extensively right up to her passing this year. We will really miss her, she was the type that truly left you in awe at her ability to raise good calves every year, very proud and thankful for her contributions to our herd. Thankfully with our embryo program we are still getting calves out of her. By the time we got our embryo program rolling she was already quite aged and so a picture of her at that point would not have done her justice.
- Heck of an opportunity here with her son selling! She proved again that seemingly it didn't matter which bull you used on her she would produce a winner.

- His dam is another cow that is of real beauty, super broody, fairly moderate and as gentle as they come.
- This bull always catches our eye when we're going through the bulls or just driving by; long bodied and soft made, nice shape and depth to his rump.

- Attractive and moderate built dam.
- Believing that this bull genetically is better than his personal performance records indicate we placed him in the lineup. From birth to sale day there isn't a step along the way where we aren't involved in performing the tasks needed. Things aren't always as they appear, and the backstory usually explains it.
- Safe for use on heifers; there is a probable chance that Lot 47 could spend most of his career breeding heifers and not growing to the point of being too big.

- Dam is a bit above the average for structure, very much a heavy milker, we are protecting her to a degree for teat size, hence mating her with Rangeland in this case.
- Certainly, great individual physical performance since birth and extra genomic strength in the area of heifer pregnancy.

- His dam is a cow that we started flushing as soon as we were up and going with our embryo transfer program. She is now deceased but made it to 17 years old and was still producing good embryos right up to the end. She was a large frame cow, super gentle, strong maternal presence, very durable and fertile.
- Recommended for anyone looking to increase frame, build herd longevity and reap maternal rewards.

The commercial bred heifers will sell in groups of 5-7 head. All head must be taken within that group, if purchased. Buyer with top bid has the opportunity to take up to 40 head at which point the bidding will restart.

Heifers will be pregnancy checked on December 2, 2024  
by Overton Veterinary Services.

Buyers have 10 days after sale day to recheck if they deem it necessary.  
After that day, all liability belongs to the new owner.

All sale heifers have made it through our strict heifer development standards that include culling for poor phenotype, disposition, and feed efficiency.

## KEY Ranch - Commercial Bred Heifers

Artificially Inseminated to the following bulls: Ellingson Rangeland & KEY - Phase One

These heifers were procured from two separate ranches: Gurney Ranch of Burwell, NE and the Hemmann Family of Amherst, NE. Through the process of developing and breeding these heifers we have come to believe they complement one another so well that offering them for sale together offers the greatest opportunity.

*Gurney Ranch:* Long time friends and customers having a purchased a large quantity of bulls from us over the years. Highly reputable family, cowherd and management approach.

*Hemmann Family:* We have been weaning their steer calves for them for the past several years. Impressed with both the family and their cattle we approached them about buying their heifer calves.

& KEY - Rangeland 3007L

It should be mentioned that no preferential treatment or favoritism is behind the decision we made to pursue the opportunity to offer this set of heifers. We're blessed with a customer base that has stuck with and supported us through thick and thin, and who each individually has high quality breeding programs. Thank you to all of you! It is our desire to continue to grow our offering of bred females. We're interested in your heifer calves. If this something that could be of interest to any of you, please contact us. We'd love to work with you.
